Original Impact

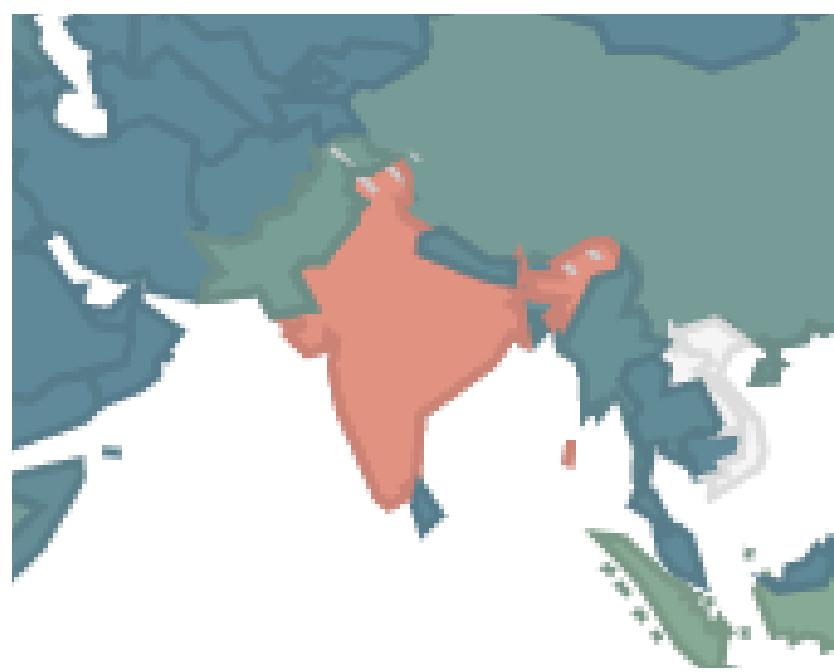

India

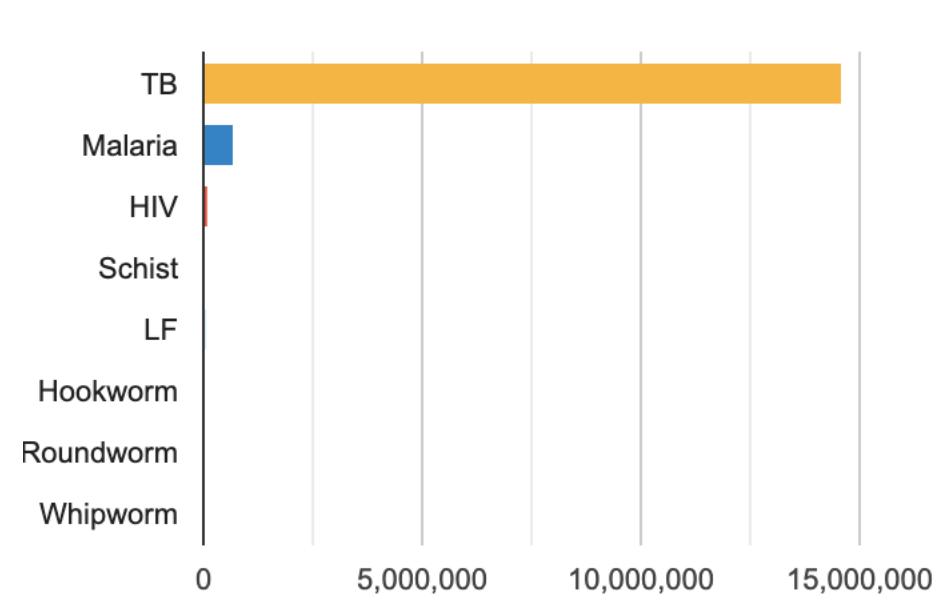

As shown above, Bayer Healthcare normally has an impact score of 110,362.8, but with the altered specifications, the impact score is now 184,229.14. This is mostly due to the increase in Overall Treatment Coverage. Of which, increased the impact score by 43.93%. Other changes, like efficacy, increased the impact score by 12.84%. To get a better understanding of the values we found, the formula with these specifications outlines is provided below.

New Impact

India

As shown above, Bayer Healthcare normally has an impact score of 110,362.8, but with the altered specifications, the impact score is now 184,229.14. This is mostly due to the increase in Overall Treatment Coverage. Of which, increased the impact score by 43.93%. Other changes, like efficacy, increased the impact score by 12.84%.
